Career Objective

Final-year B.Tech IT student and MERN-stack developer with hands-on experience building real-world web applications. Strong foundation in Data Structures and Algorithms with a keen interest in backend and software engineering. Seeking an opportunity to apply my skills in a dynamic team environment and contribute to impactful software solutions.

Education

Jaipur Engineering College and Research Centre, RTU
B.Tech – Information Technology (Full-time) | CGPA: 8.45

Jaipur, Rajasthan
2023 – 2027

Internship & Training

Full Stack Web Development Training – Upflairs

August 2025 – September 2025

- Completed hands-on full-stack training covering React.js, Node.js, Express.js, and MongoDB.
- Built basic full-stack applications, including an e-commerce app, focusing on component design and database integration.
- Practiced CRUD operations, RESTful API design, and end-to-end application development.

Technical Skills

Programming Languages: C, C++, JavaScript

Web Technologies: HTML, CSS, React.js, Node.js, Express.js

Databases: MongoDB, SQL, MySQL

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Tools & Technologies: Git, GitHub, REST API, JWT, Postman

Projects

Placement Tracker | [GitHub](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, REST APIs, Git

- Built a MERN-stack placement management system enabling students to track applications, tested with 20+ student profiles and 15+ company records.
- Designed JWT-based authentication with role-based access control (RBAC), securing 20+ REST API routes for student and admin permissions.
- Added resume upload and in-app notifications, plus an AI-powered resume analyzer that matches candidate profiles to job descriptions and suggests improvements.

EduSafe-360 | [GitHub](#)

Tech Stack: Node.js, Express.js, MongoDB, Firebase, EJS, Git

- Implemented dual-role (student/teacher) authentication and a real-time campus tracking system using Firebase Firestore, with geofencing alerts and emergency routing.
- Developed a rule-based safety chatbot with live weather and location risk lookup via OpenWeatherMap and OpenStreetMap APIs, plus automated email alerts using Nodemailer.

Achievements

- Qualified in the Smart India Hackathon (SIH) preliminary round conducted at the college level.
- Solved 400+ Data Structures and Algorithms problems across LeetCode, GeeksforGeeks, and a documented C++ GitHub repository.

Extra-Curricular Activities

- Volunteer – National Service Scheme (NSS): Organized blood donation, cleanliness, and tree plantation drives, contributing to local community welfare as part of a 50+ member team.
- Member, Spiritual Research Cell (SRC) – Coordinated the Techno-Spiritual Exhibition, a DST-backed science outreach initiative reaching 500+ rural youth across Jaipur.
